Past Performance

Nuclear Field

Our patented Quantumwear® line of products have been used at many DOE sites, including Hanford, Savannah River Site, Oak Ridge, and Los Alamos by countless organizations, such as Fluor, MCS, CH2MPRC, SRR, SRNS, LANL, ORNL, and UCOR.

Three of the Top 10 Pharmaceutical Manufacturers

Quest designed and manufactured garmenting and certified clean shoe and boot covers for three of the top 10 Pharmaceutical manufacturers. In each case the product they were originally using failed. Quest developed new products that increased safety by reducing slips, trips, and falls while guaranteeing a consistent supply chain and a substantial annual savings.

Fluor-Fernald Inc.

Quest develop a customized PPE stocking program designed with lean but robust inventory levels in mind for a 4.4 billion dollar plant closure project. We are able to maintain a stock level that strengthened productivity for operation of the facility while creating a consistent supply chain and savings for Fluor of 30%.
